JUNE When life blossoms

June celebrates the delicate vine flower.

In June, when the sun warms the earth, the fleeting, delicate vine flowers are picked by hand in French vineyards, then distilled with the greatest care to extract their exhilarating and spellbinding flavours.

Luminous, warm and vibrant, JUNE® liqueur captures the emotions of the precious moment when life blossoms.

Delicate, yet intense, JUNE® is the only liqueur in the world made from a bouquet of vine flowers, each bringing their own specific flavour:

Ugni Blanc flowers provide pear, exotic fruits, peach and white floral notes; Merlot flowers lend wild strawberry and cherry-blossom aromas; and Cabernet Sauvignon flowers recall strawberry, raspberry and violet.

Proof: 28°

Packing: 6-bottle case
