

FRANCE

TRADITIONALLY UNCONVENTIONAL

G'Vine Gin is more than a spirit in a glass. It embodies the creativity and joie de vivre of modern day France, combining the rich heritage of the Charente region, the avant-garde attitude of Paris and the effortless chic of south-western France.

G'Vine celebrates the free spirit and invites to look at things differently.

G'Vine is Traditionally Unconventional.

G'Vine is a French gin crafted from grapes, a noble ingredient which is rarely used for crafting gin. The grape spirit is the perfect backdrop for the ten botanicals that bring delicacy and complexity to the blend. Amongst them; the precious the vine flower perfuming the vineyards with its enchanting fragrance only a few days per year. The marriage of the vine flower essence with the other botanicals creates the uncompromising and refreshing smoothness of G'Vine Gin

FLORAISON

Fresh & floral

The name Floraison means “flowering”, the key moment in the life cycle of the vine and the perfect description for a gin that is fresh and floral, refreshing yet round and smooth, evoking the very essence of springtime in the vineyards, when the air is filled with fragrance of blossoming vine flowers.

This unique gin will surprise both connoisseurs and those new to gin. Floraison is just as well suited to making a refreshing gin & tonic as a summer cocktail.

NOUAISON

Intense & spicy

Nouaison means “setting”, the beautiful metamorphosis stage from aromatic flower to luscious berry, capturing the poised energy of the grape's evolution.

Complex, intense and spicy, G'Vine Nouaison offers connoisseurs an original and elegant alternative to traditional dry gin. With its bold 43.9% ABV and its rich mouthfeel, it's the definitive base for countless classic cocktails such as the Negroni, as well as providing inspiration for new creations.
